To our beloved patients, friends, and family:

Our office is still open and we are seeing all essential appointments, utilizing all precautions available. We are trying to do our part in staying open for any emergent problems that you, family, or friends may experience, with our goal to evaluate and treat her in the office to help minimize the need to go to the emergency room and alleviate the ER from less critical cases.

We want you to know that we are doing our best to navigate in accordance to CDC guidelines for COVID-19.

First, we give our loving thoughts for anyone who has been impacted by the virus and we as a team are taking precautions in our office.

- All elective surgeries have been cancelled and will be rescheduled as soon as the surgery center re-opens.
- Emergency surgeries (fractures, ruptures, etc.) are still being performed, but are now being done at Lakeland Regional Health.
- Each patient and every staff member, including doctors are screened for temperature twice daily utilizing no-touch infrared temporal scanner thermometers.
- We are utilizing 3M N95 healthcare respirator masks.
- Sanitizing the office and treatment rooms between every patient.
- Sending home sick employees.
- Rescheduling all non-essential appointments.
- *We are now **Telemedicine** providers and would be glad to set up a telemedicine conference with the doctor at your convenience. Video chat with Dr. Werd or Dr. Fazekas in the comfort and safety of your own home. Call our office for details, we will help you get set up!*

As we deal with the uncertainty, we appreciate your understanding and hope at the very least that times like these remind us that we are all in this together.

We hope to see your healthy, happy faces soon!

- Dr. Fazekas, Dr. Werd, and Staff –  
Foot and Ankle Associates
